Great Lakes FACTS

Did you know? Water in the Great Lakes eventually travels to the ocean.

The Great Lakes contain 20% of the world's available freshwater.

The Great Lakes have the world's longest freshwater coastline— it's more than 10,000 miles long!

Ways to LOVE Water

- Recycle at home and school
- Switch your bath to a quick shower
- Clean up a beach
- Plant a tree
- Encourage family to switch to low-flow faucets and showerheads
